# WHAT THE WORLD THINKS OF WORLD OF WELLNESS

“ We wanted luxury, comfort and connectivity in our dream home. ‘Hero Homes’ has all of that and more. The whole experience of signing the deal was overwhelming. Every project detail was explained to us and payment plans were designed to suit our budget. So much so that it took us just a day to close the deal. Because we knew we were dealing with one of the most trusted brands in real estate - Hero. ”

**Shalini Balaji**

“ A promising brand like Hero Realty fosters a grand image of Hero with its customer-oriented approach. There are many reasons to choose Hero Homes but the trust of Hero as a brand is one of them, especially during these uncertain times for the real estate sector. This project offers the right blend of amenities with great location advantage, at a reasonable price. It is imperative here to mention about their courteous staff (Front-end Sales & Marketing, Finance, Operations, etc.) too. They are always there to help you with their prompt responses. We just have one regret though. At the time of finalizing the deal, we were a bit hesitant about going for a more spacious flat but after seeing Hero's approach now, we feel we should have opted for that option. ”

**Mridul**

“ It has been a great pleasure being associated with brand Hero, not only has the brand name provided buyers confidence, but we have also been very impressed by the continuous progress of the project and timely updates. The team has always provided complete clarity and transparency on financial dealing, which has boosted our confidence. Looking forward to a long and rewarding relationship. ”
